Kyiv - Mariupol, 28.02.2022 To: International Federation of Cynological Sports

Dear Colleagues and Friends!

Today we must address you because of the Russian invasion of Ukraine. This unprovoked act of aggression is a great tragedy not only for our country but also for Europe and the whole civilized world.

The Ukrainian Federation of Cynological Sports (UFCS) decided to appeal officially to the International Federation of Cynological Sports. Taking into account the military aggression of Russia against Ukraine, UFCS decided to send the relevant appeal to IFCS regarding banning the participation of all national teams and club teams of Russia in any international competitions under the auspices of IFCS.

Also, we kindly ask you to consider the issue of excluding Russia, represented by any of its organizations, from the International Federation of Cynological Sports.

We hope for your understanding and support.

Best regards,  
UFCS President

Konstantin Binkovsky
